

01/French House 2

Ableton 10 Producer Racks

Brand new and exclusive to this release, 6 Ableton 10 FX Racks to get your music groovin'

Daft

Transform your sound and add classic french vibe with dub delay, pitch-tracked vocoding, pump, tape hiss, flanging and more. Great on basslines and synth leads and perfect for intros.

Dance

Set the groove with our one stop processing shop. Featuring an inbuilt resampler module, pump FX, compression, dj-style low cut EQ and resonant filters; this module is everything you need to get some movement and reinvent classic grooves. Great on single instruments as well as channel mixes.

Freezer

Freeze your tracks in place using Ableton's Reverb Freeze control and confort them with a plethora of FX including a beat repeat resampler, resonant filtering, dj-style low cut EQ, drive and phasing. Great for build ups, intros and transitions.

Renvelope

Instantly add movement and get that classic wet filter sound. Use the LFO and LPF controls in tandem to transform your sound. Dial in envelope modulation for even more movement and resample and endlessly reinvent your grooves with ease.

Transition

The last word for creating transitions. Featuring on-the-fly resampling, distortion, dj-style low and high EQ FX, phasing, 1/8 dotted dub delay and compression. This rack has everything you need to quickly create entrancing transitions and FX.

Vintage

Add vintage character with our multi-FX Vintage rack. Mix analogue and digital character with the vinyl, bit crushing and flanging controls. Boost the bass and treble with Scoop and add character with drive and filter controls. Great on basses, synths and other lead instruments.

Please note: The above racks require Ableton Live 10.0.5 or newer. These racks are compatible with Ableton Live 10 Standard and Suite editions.
