

01/Future Glitch Drum Kits

Ableton 9, Reason 10 & Logic Pro X: Advanced Drum Kits

Get straight to work with our Advanced Drum Kits for Ableton 9, Reason 10 and Logic Pro X. Featuring 10 kits with multiple adjustable macros and buttons for our included FX processing options, the Advanced Drum Kits allow you to start programming raw and futuristic grooves quickly and easily. Further details below.

Tools	Ableton	Reason	Logic Pro X	
Filter	✓	✓	✓	Soften your highs or create transition FX with the 12-db per octave Filter.
Intensity	Adds SMP-circuit filter drive	Custom Scream4 Distortion patch, set to the Tape mode.	Add filter drive through classic Tube circuit.	Dial up the intensity with warm distortion.
Pluck	Filter resonance and envelope	✗	Adds filter envelope	Add resonance and filter envelope in one control. Great when used subtly with the Filter control.
Tune	✓	✓	✓	Globally re-tune your kit on the fly to instantly create a lo-fi or modern sound.
Spread	✓	✗	✗	Add width and thickness by creating a second detuned voice. (Ableton only)
Saturate	✓	✓	✓	Add some warmth and bite to your kit with analog-style distortion.
Vinyl	✓	✓	✗	Add width and crunch with vinyl distortion. (Ableton and Reason only)
Overdrive	✓	✓	✓	Add distortion and drive with our custom overdrive module.
Scoop	✓	✓	✓	Dial in a custom EQ curve to boost the lows and highs, clear away mud and add impact.
Drum Squash	✗	✓	✗	Custom Pulveriser compression patch to fatten drums and add depth. (Reason only)
Delay	✗	✗	✓	Custom Echo patch to add off-kilter techno-inspired delay in an instant. (Logic Pro X only)
Room	✗	✗	✓	Custom Chroma reverb patch to add room reverb in an instant. (Logic Pro X only)

Please note: The above racks require Ableton Live 9.7.7 / Reason 10.2 / Logic Pro X 10.4.2 or newer. These racks are compatible with Ableton Live Standard and Suite editions and forward-compatible with Ableton 10. The Advanced Drum Kits can be found in the "advanced drum kits" folder. The included FX patches can be found in the DAW specific fx patches folders.
